- Set parameters must be met? Guidelines!  
ARE THERE Provide website

- Close consultation re: Effects to Res. Trad. & Cultural values & interests  
TRIBAL CONCERNS COOP Agency?

- Opposed to the project (TRIBE)  
No mention on draw down to Big Sandy  
HABITAT Crit. Native Species  
Natal Res's  
Air Quality process
- What happens if our wells go dry?
- Criteria for <sup>50 yrs</sup> water draw down?
- What happens to water being used?
- Scenic Highway what hap to it?
- Water is a crit resource, bring MC  
into crit res. comm. for proper water  
use
- Endangered species in Wikieup? (US)

- Big Sandy as Wild/Scenic River  
Will this effect its status?
- How is Western paid for this?  
No compensation? What is the trans.  
tariff rate
- HB2324 Net Tax Revenue to MC?
- Potential for this p. to prov. benefits?  
↓
- How much really comes to Wikieup for  
comm. imprvmt?
- Will neg. comm. from the commun. be effective  
in this process? Will they be considered.
- Will the local comm. comments have  
more weight? For example, Casa  
Grande

- Where are the decision makers in the process. Who makes the decision?

Mike Hacskaylo  
Administrator

- Concern that the process doesn't happen in conjunction w/ answers  
Decisions w/held until after voting
- Touch on Env. Justice in such an area
- Pres. Council asks to supp. sustainability  
Renewables & How Western  
should be add. this, taking account.  
Why not more participants in renew.

- How could MC use fresh water for power plant - Why is this a good idea?
- Who is on the env. study? How are they selected? Who funds? Not lowest bidder? Want an impartial decision maker?
- Include tribe in dec.
- How far away can the location be changed before the process starts over? What is process? Is <sup>it</sup> shortened?
- No rubber stamp for EIS team.
- If plant goes in & there is an effect on the water - at what point would you stop?

- Addressing where the water is coming from - source  
Aquifer recharge?

In comp. - other ppts & solar/wind  
generation      using less water  
Dry cooling

- Detailed hydrolog. study
- Sugg. that the closer you are to the project more you are against it.  
Plant      Bullhead City or Lake Havasu

- If power leaving Wikieup what is it benefit to ↗?
